

Celebrating Excellence: Saint Andrew Catholic School's Remarkable Journey to Reaccreditation and Distinction

We are delighted to share some exciting news with our Catholic School and Parish community! This year, Saint Andrew Catholic School has achieved a significant milestone- reaccreditation by Cognia. This accomplishment signifies our unwavering commitment to providing exceptional education in alignment with the highest standards.

Saint Andrew Catholic School also earned the School of Distinguished Instruction from the Archdiocese of Philadelphia based on our outstanding performance in the 2022-2023 Terra Nova Testing. This recognition is a testament to the hard work and dedication of our students, teachers, and staff. Saint Andrew Catholic School has earned this award every year in which it was awarded.

Not only were expectations met, but they were exceeded. Saint Andrew Catholic School is one of eighteen schools to earn the Distinguished Instruction Award in both categories, Growth and Exceeding Potential. In addition, Saint Andrew Catholic School is proud to be one of just two schools in the Archdiocese to have scored 100% in both growth and potential categories. This marks the second consecutive year in which students have reached this level of accomplishment. This speaks volumes about our continuous commitment to nurturing the intellectual and spiritual growth of our students. Moreover, Saint Andrew Catholic School wants to highlight that these accomplishments come amid changes to the Terra Nova testing. Despite these challenges, our school community rallied together, demonstrating resilience and determination.
